REGULATIONS

Regulation (EU) 2016/425, according to the personal protection equipment

- ✓ PPE Category I.

RECOMMENDATIONS

- ✓ It is recommended to check and verify the glove before use and periodically to ensure that no damage is present, as it can significantly affect the expected protection.
- ✓ It is recommended to use them for aqueous, sour, dairy and dry foods, always without any contact with oils and other fats.
- ✓ Replace immediately if any deterioration is observed in the glove.
- ✓ For conservation and storage, it must be away from sources of heat and light bulbs.
- ✓ Store in a cool dry place.
- ✓ It is recommended to save the inner box for possible consultation.
