LEGISLATIONS

Regulation (EU) 2016/425, according to the personal protective equipment.

✓ PPE Category I.

RECOMMENDATIONS

- ✓ It is recommended to check and verify the glove before use, and periodically during use, to ensure that no damage is present, as it can significantly affect the expected protection.
- ✓ These gloves contain natural latex, so it can cause some type of sensitization to this component of the glove and, therefore, develop irritating reactions and / or allergic contact reactions.
- ✓ Replace immediately if any deterioration is observed in the glove.
- ✓ For conservation and storage, it must be away from sources of heat and light bulbs. Store in a cool dry place.
- ✓ It is recommended to save the inner box for possible consultation.
